THE ANNUAL STUDENT CARNIVAL

About the Carnival

The department of English language always brings the dreams of dedicated students into the ground of virtual reality. The annual student carnival was held as a workshop since the 1990s and was characterized by various activities performed by the students themselves, reflecting their skills, talents, and hobbies.

Being at the time of Covid-19 pandemic, with all the well-known restrictions and barriers that prohibit social contact, our inspiring students accepted the challenge. Therefore, we adjusted our sails to reach the destination online. The carnival is held by the joint efforts of the department academics and students, who crystalized to present their activities at such challenging times.

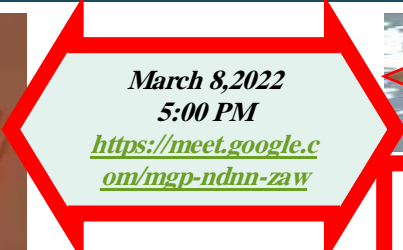

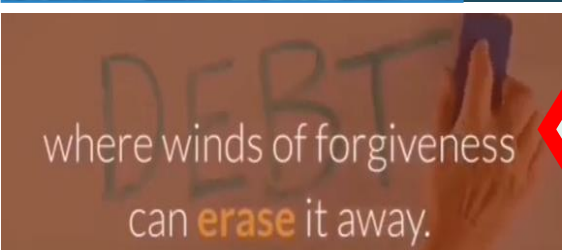

My Handcrafts: An Activity by Student

The carnival aims at:

1. Shedding light on our students' skills, hobbies, and talents.
2. Conveying knowledge cultivated by artistic expression.
3. Offering a great chance for students to practice English language outside classrooms and consequently be more confident and proud of themselves.
4. Setting a nice opportunity for face-to-face cooperation between students and their teachers. Students have the chance to communicate with their teachers and listen to their corrections, advice, and instructions.
