Dear Sam Mendes,

Enjoy your **15-day Trial of REF-N-WRITE**. Give us a shout if you have any problems, we will be happy to help. Please go through the [training videos](#) to learn how to use the Tool. If you have a moment, please **click the like button** at the top of the page.

1. Installing on Windows

Follow the instructions below to install REF-N-WRITE on Windows:

- **Download** the software from the **link below**.

Dear Sam Mendes,

Enjoy your **15-day Trial of REF-N-WRITE**. Give us a shout if you have any problems, we will be happy to help. Please go through the [training video](#) the Tool. If you have a moment, **please click the like button** at the top of the page.

1. Installing on Windows

Follow the instructions below to install REF-N-WRITE on Windows:

- **Download** the software from the **link below**.
- **Double click** the **REF-N-WRITE_Setup.msi** file and **install** the tool.
- If your **antivirus blocks** the software, **disable the anti-virus software** for a few minutes and try installing again.
- **Open Word**, you will see the **REF-N-WRITE Tab in the Ribbon Menu**.
- **Click** one of the REF-N-WRITE buttons.
- **A message box will open** prompting you to **enter your email address and license**.
- Just fill in the details shown below and you are good to go.
- If you are getting **'Wrong License Key'** Error, then enter the license code in **lowercase**.

Enabling missing Ref-n-write tab

Now click 'Addins' in the side panel

Enabling missing Ref-n-write tab

Word Options dialog box, Add-ins section:

View and manage Microsoft Office Add-ins.

| Name ^ | Location | Type |
|---|--------------------------------|--------------------|
| Active Application Add-ins | | |
| Date (XML) | C:\...red\Smart Tag\MOFLDLL | Action |
| Instant Messaging Contacts (English) | C:\...mart Tag\IMCONTACT.DLL | Action |
| Measurement Converter (Measurement Converter) | C:\...\Smart Tag\METCONV.DLL | Action |
| Telephone Number (XML) | C:\...ared\Smart Tag\MOFLDLL | Action |
| Visual Studio Tools for Office Design-Time Adaptor for Word | C:\...x64\VSTOWordAdaptor.dll | COM Add-in |
| Visual Studio Tools for Office Design-Time Adaptor for Word | C:\...x64\VSTOWordAdaptor.dll | COM Add-in |
| Zotero.dotm | C:\...rd\STARTUP\Zotero.dotm | Template |
| Inactive Application Add-ins | | |
| ActionsPane Schema for Add-Ins | c:\...d\VSTO\ActionsPane3.xsd | XML Schema |
| Grammarly | C:\...FE0\GrammarlyShim64.dll | COM Add-in |
| Microsoft Actions Pane 3 | | XML Expansion Pack |
| OneNote Notes about Word Documents | C:\...Office16\ONWordAddin.dll | COM Add-in |
| REF_N_WRITE_AddIn | C:\...-N-WRITE\adxloader64.dll | COM Add-in |
| Time (XML) | C:\...ared\Smart Tag\MOFLDLL | Action |

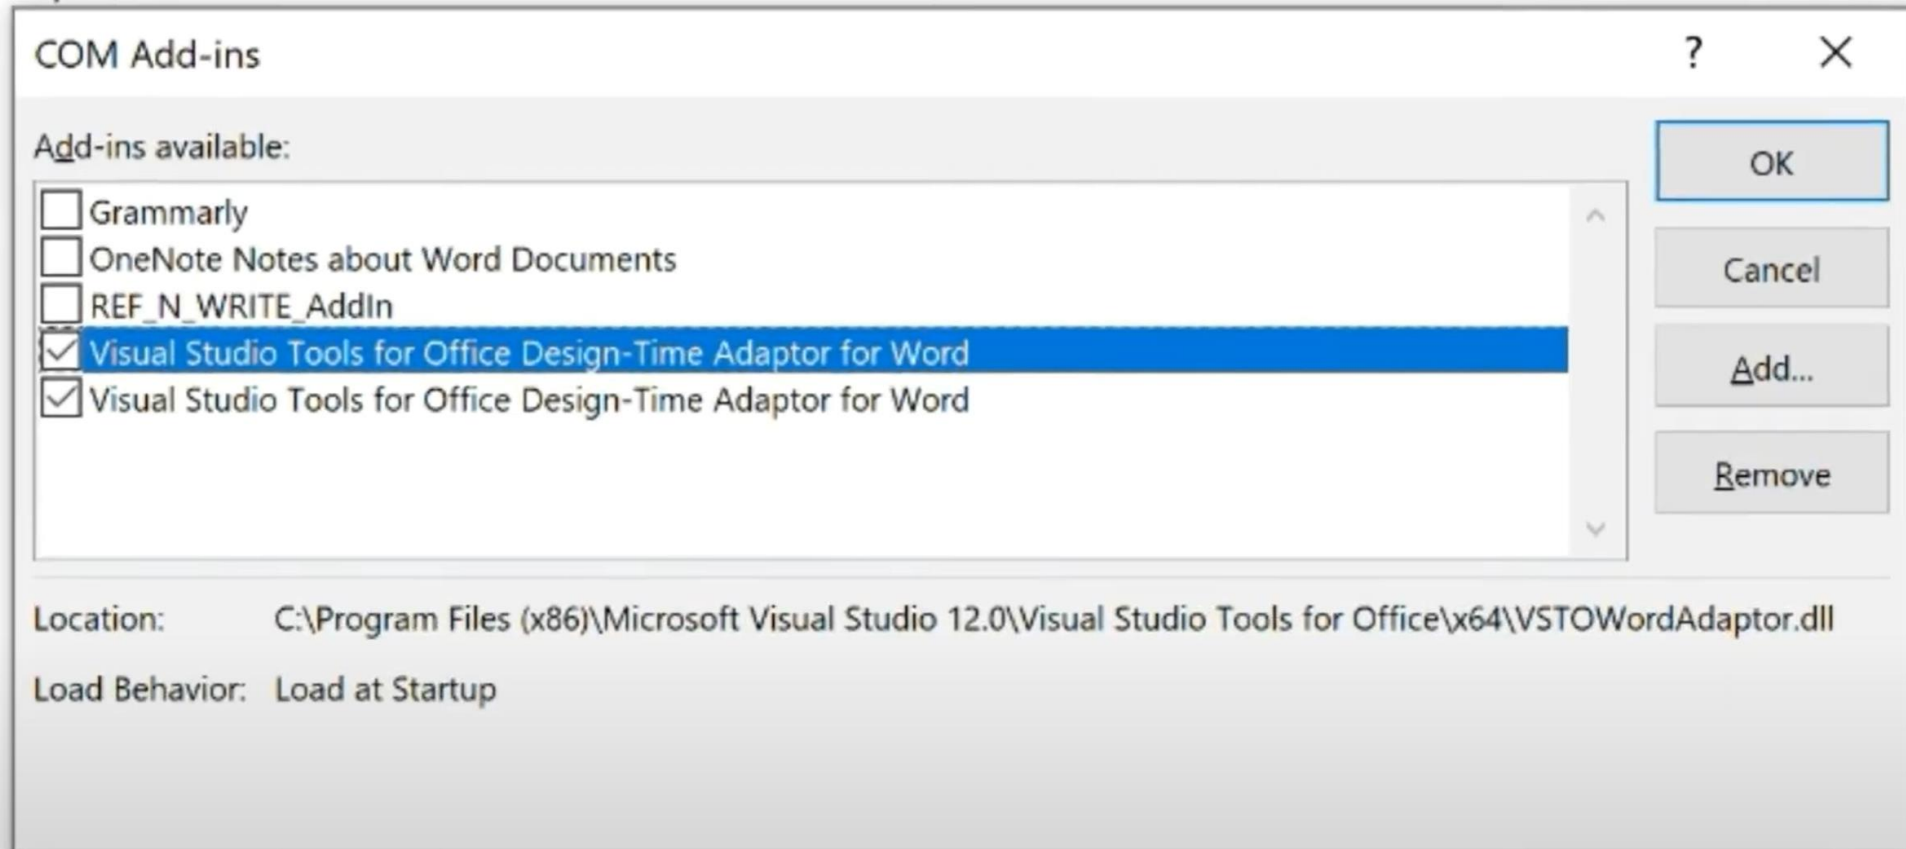

Add-in: Date (XML)
Publisher: Microsoft Corporation
Compatibility: No compatibility information available
Location: C:\Program Files\Common Files\Microsoft Shared\Smart Tag\MOFLDLL

Description: Additional actions specified in list description files.

Manage: COM Add-ins **Go** OK Cancel

Then click on the 'Go' button next to 'COM Addins'

Enabling missing Ref-n-write tab

Now select the Ref-n-write Addin and click 'Ok' to close the Window

Enabling missing Ref-n-write tab

The image shows the Microsoft Word ribbon with the 'Insert' tab selected. The ribbon includes sections for Tables, Illustrations (Pictures, Shapes, Icons, 3D Models, SmartArt, Chart), Content (Reuse Files), Add-ins (Get Add-ins, My Add-ins, Wikipedia), Media (Online Video), Links (Link, Bookmark, Cross-reference), Comments (Comment), and Header & Footer (Header, Footer, Page Number). A 'COM Add-ins' dialog box is open in the foreground, displaying a list of available add-ins. The 'REF_N_WRITE AddIn' is checked and highlighted. The dialog also shows the location of the add-in and its load behavior.

COM Add-ins

Add-ins available:

- Grammarly
- OneNote Notes about Word Documents
- REF_N_WRITE AddIn
- Visual Studio Tools for Office Design-Time Adaptor for Word
- Visual Studio Tools for Office Design-Time Adaptor for Word

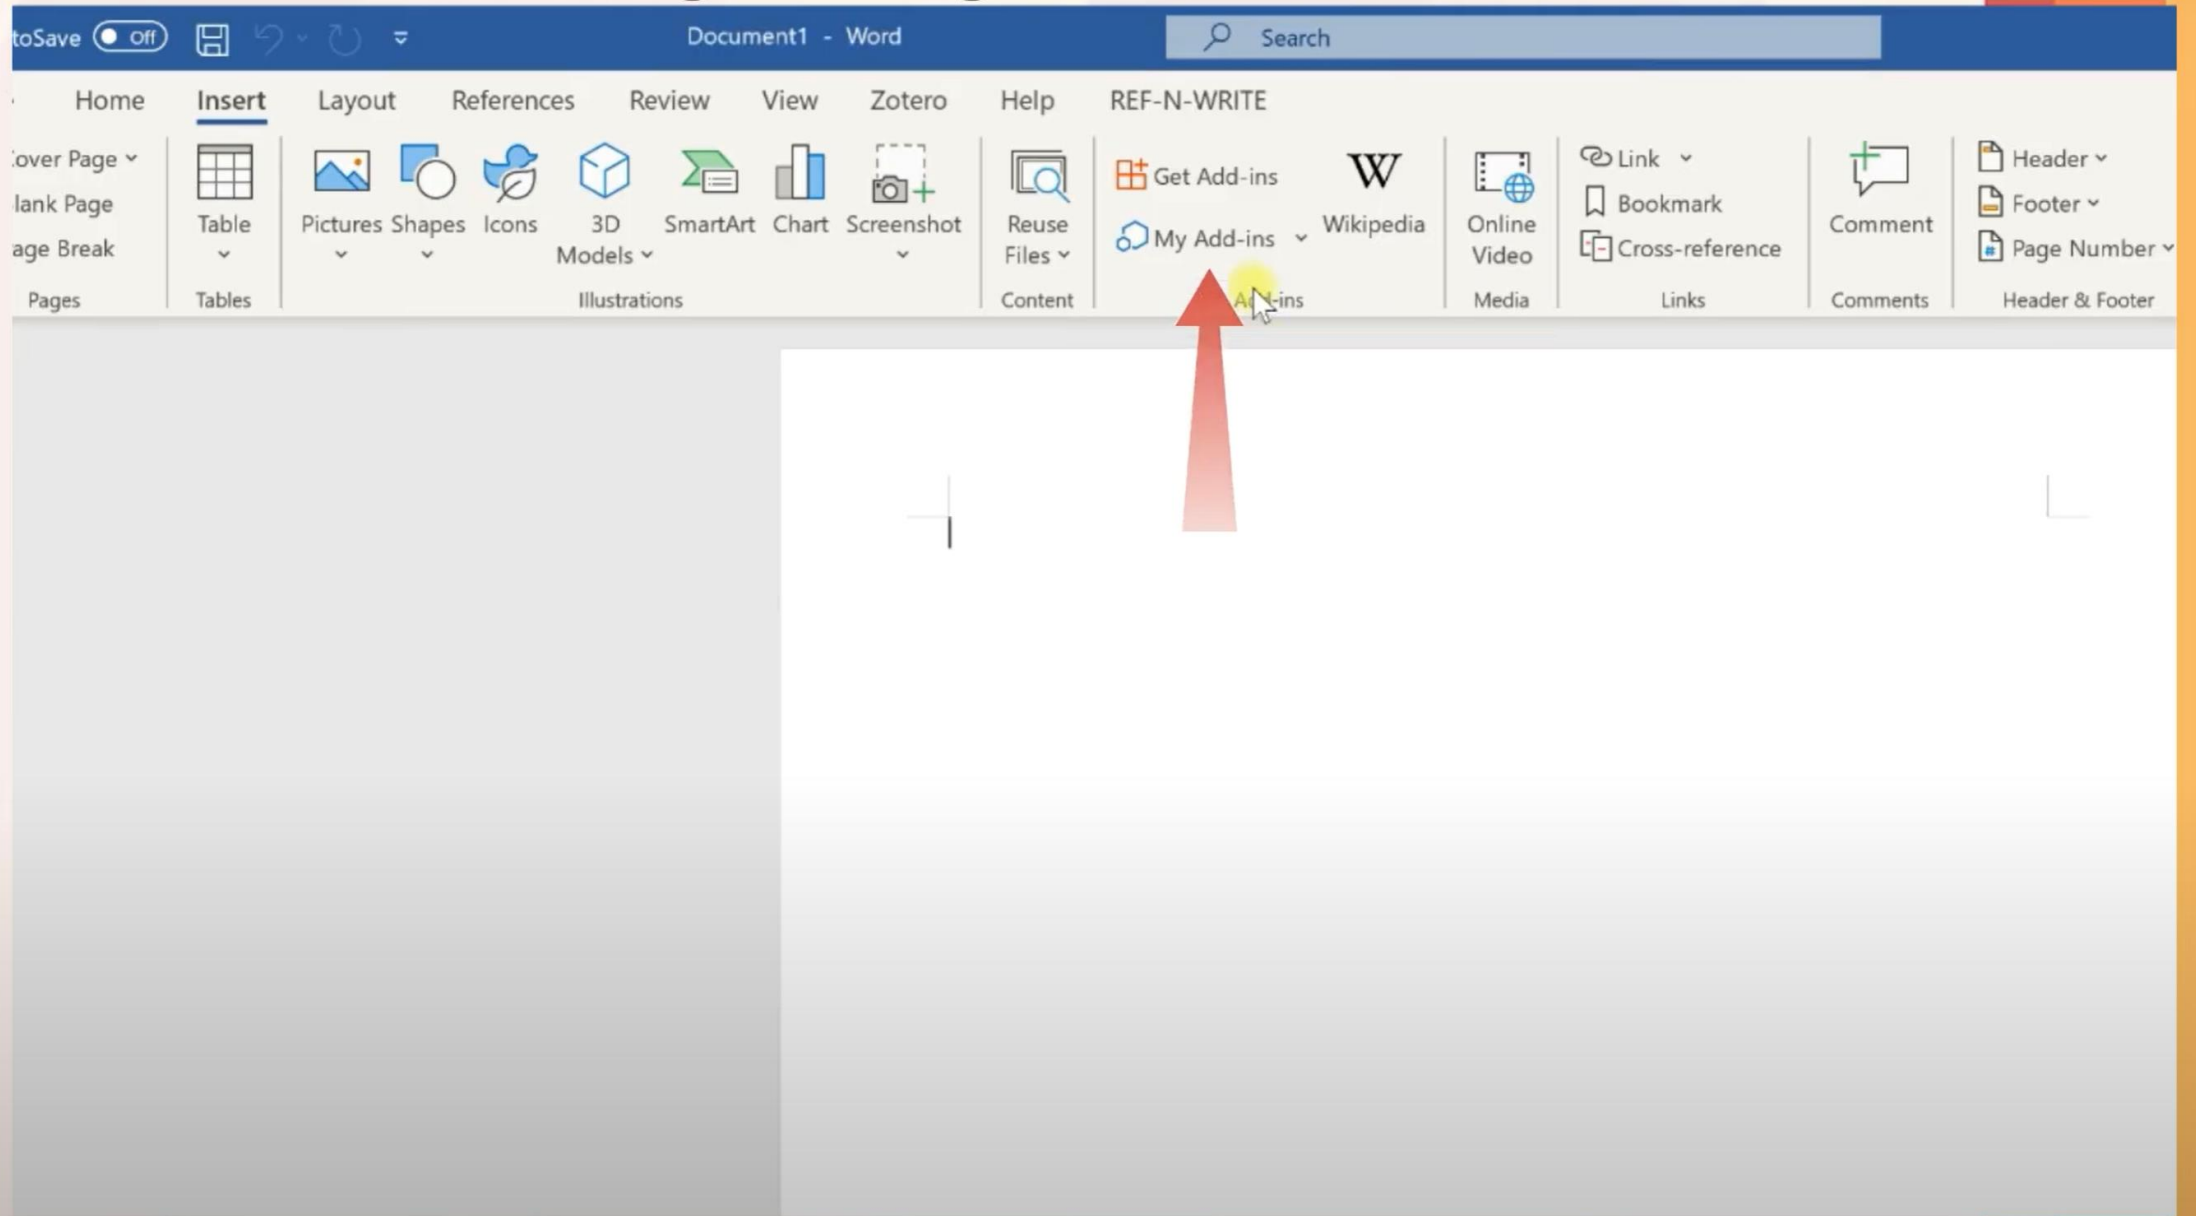

Location: C:\Users\kumar_000\AppData\Local\Astute Digital Solutions Ltd\REF-N-WRITE\adxloader64.dll

Load Behavior: Load at Startup

Buttons: OK, Cancel, Add..., Remove

Now Ref-n-write tab will appear on Word

Think-aloud technique Evaluation and testing of a software tool prior to launch plays an important part in its success. In particular, if the target product is an educational software, the evaluation process should take into account both usability and the tool's ability to achieve intended educational goals (Squires and Preece, 1996). According to Jones et al (1999), it is difficult to predict the problems of the end-users, and only way to find this out is to observe the end user operate the software. One of the oldest methods that have been used for the evaluation of educational software is by using checklists. Some of the popular checklists used in the field of education include lists published by the British National Council for Educational Technology (Steadman et al , 1992) and the American MicroSift Evaluators' Guide. Recently, 'think-aloud' technique has gained popularity in the field of software evaluation. According a study by Clemmensen (2002), think aloud technique is most frequently used method for software evaluation in the 21st century. Also, it is generally accepted that this technique is simple to use and advocates the study to be conducted in a more relaxed setting (Dix et al , 1997). Think-aloud technique typically involves asking the user to speak out their thoughts and monitoring the activity by observations, video recordings, guided interaction, interviewing, and/or questionnaires (Nielsen et al , 2002). According to Wright and Monk (1991), the software developers employing think-aloud technique for software evaluation is more likely to pick up problems than the groups using other techniques. In line with the findings reported in the previous works, I have chosen to use this technique for evaluating the REF-N-WRITE software tool. 4.2. [Open the original file](#)

1 Introduction

National breast cancer screening programs play a vital role in early detection and treatment of breast cancer in Western countries. The choice of imaging modality, or modalities, to be used in such screening programs is constantly reassessed and is still a source of debate [1]. With new modalities being introduced into the market and a wide choice of system designs available within each modality, evaluation by means of clinical trials becomes challenging as this conventional approach requires timescales that cannot keep pace with the rate of technological innovation. Recently, virtual clinical trials (VCTs) have started to be used for rapid pre-clinical evaluations of new modalities using modelling tools. This approach also provides a means to study the effects of various intrinsic design variations so as to optimize the design for the best screening performance.
