Copying Conditions
MiKTeX is freely redistributable under certain conditions.

The following article is an adaption of the article "Copying conditions for TeX Live" (reference given at the end).

Copying conditions for MiKTeX

To the best of our knowledge, all software in the MiKTeX distribution is freely redistributable (libre, that is, not necessarily gratis), within the Free Software Foundation's definition and the Debian Free Software Guidelines. Where the two conflict, we generally follow the FSF. If you find any non-free files included, please contact us (reference given at the end).

I accept the MiKTeX copying conditions.
